

Quiz 2B, programming section.

35 points

- Start from your previous Quiz 1B.
- you will have 3 activities in this project.
- first activity is the login that you will use from the Q1B (5 pts)
- the 2nd activity should have the layout as shown below (the left one) (10 pts)
 - try to duplicate it as close as possible (positioning and colors)
- In the 2nd activity (question activity), there is one question and 4 answers.
- when the user clicks on an answer one of the following should happen:
 - if the answer is correct (only one of the answers should be correct), you will start the 3rd activity with the layout as shown below (the one on the right). (10 pts)
 - you choose the right answer!
 - if the answer is not correct (the other 3 choices), you will show a dialog saying: your answer is wrong, do you want to try again? with two buttons: yes, no
 - if yes is pressed you go back to the 2nd activity (5 pts)
 - if no is pressed you go back to the main activity (login activity) (5 pts)
